HAS THE GOOD ROADS FEVER.

Jacksonville to Miami in an Auto is Coming.

Land Deal at Ormond.—Other

Interesting Gossip.

The Ormond correspondent of the Times-Union says:

"The Florida East Coast has the good roads fever in the most virulent form as shown by the continual opening of new roads, such as the road from Ormond to New Smyrna, the route following the beach from Ormond to Daytona or taking the Halifax river road on the mainland, connecting with the new shell road of some twelve miles from Daytona to New Smyrna. This was built by Volusia county, aided by private subscriptions, through the efforts of the F. E. C. A.

BIG DEAL AT ORMOND.

"Mr. Harrington, the leading Boston real estate operator recently arrived at Ormond and with John Anderson, who is the owner of much property at Ormond, got to work and a big real estate deal was put through, Mr. Harrington taking hold of the Ormond property of several hundred acres which it is proposed will be laid out into attractive building spaces for elegant winter residences. This will make Ormond still more attractive for automobiles.

FROM PALM BEACH TO MIAMI.

"The opening of the new road from Palm Beach to Miami, sixty-six miles in length, to be doubled the coming summer by Dade County with H. M. Flagler, is another evidence of the active interest in the good roads movement. All this is only an indication of what will be

done on the Florida East Coast, as Mr. Flagler has laid his hands on the good roads' plow, and as Mr. Flagler is not in the habit of looking backward but always forward, the automobilist can always look forward to an ideal touring place for the winter.

WILL BE A REALITY.

"The dream of a road 400 miles in length along the Florida East Coast, Jacksonville to Miami, is likely to be a reality inside of two or three years, as the counties through which the proposed roads will run are now employing convicts in road building and as the beaches can be used at least one-third of the way, the trip from Jacksonville to Miami by automobile will be one of the most important of automobile touring in the United States.

FINE RESIDENCES.

"Fine residences will undoubtedly spring up at the more attractive spots along the road as wealthy northerners are always looking for winter playgrounds and now the big automobile toy calls for just such a place to enjoy it as will be found in Florida when the great East Coast boulevard is built.

FRUIT GROWERS' OPPORTUNITY

"Cross roads will undoubtedly be built connecting with the main road, and this will act as a feeder for the Florida East Coast Railroad and give the fruit growers and others an opportunity of getting their produce to the markets as well as get their goods hauled over a good road.

THE TRUCKING SEASON ON.

The Tomato Crop, Which is a Short One, Will Move This Month.—Pineapples Abundant.

The Florida trucking season is now on in earnest, and from now on until the last of the summer months all kinds of vegetables and fruits will be passing out of the State.

At present, celery, cabbage and lettuce are the principal articles moving, but there is still a quantity of oranges going to the Northern market.

The tomato crop on the East Coast this season is estimated at about 350,000 crates, and will commence to move about the latter part of March.

The potato crop is estimated at about 150,000 barrels. This crop will start to move about April 1st.

The pineapple crop for this season is estimated at about 150,000 crates, and will commence to move about June 1st.

The truckers have planted larger acreages this season, and the plants are now in a flourishing condition, and will yield many large pineapples.

Watermelons and cantaloupes will start to move about the latter part of May or the first of June.

"By the time the road is built the freight automobile will be with us, and that means that the horse will take a rest, and the roads will be less expensive to maintain.

MANY MACHINES AT ORMOND.

"The following people are quartered for the winter, with their machines, at Ormond, and this list shows only a hint of what the winter auto colony will be when the touring limits are extended:

"C. G. Stevens, Lynn, Mass., Orient; E. R. Bellman, Madison, N. J., Pan-American; E. R. Bellman, Madison, N. J., Stanley; J. A. Lamper, Lynn, Mass., Peerless; Wm. A. Adriance, Poughkeepsie, N. Y., Stevens-Duryea; William Whiting, Holyoke, Mass., Stevens-Duryea; T. C. Barr, Newark, N. J., Walter; H. S. Chapman, New York City, Pierce Arrow; R. Hager, New York City, Royal Tourist; John H. McCarthy, Boston, Mass., Franklin; F. H. Humphrey, Morristown, N. J., White Steamer; Clarence W. Seaman, New York City, Cadillac; Wm. Scultz, Zanesville, O., Electric.

REALTY DEALS RECORDED.

An Unusual Amount of Property Has Recently Been Sold.—Real Estate Dealers Reaping a Harvest.

Real estate dealers in Daytona and vicinity, for some time past and at the present time, are reaping a harvest as evidenced by the number of transactions that have recently been recorded in the office of the clerk at DeLand.

Many of the transactions made are the sale of fine residence and building lots. Quite a number of the purchasers of lots have in contemplation the erection of handsome homes on their property the coming summer. Following are the recent transfers:

Joseph L. Edgar to Emma J. and Harriet M. Edgar, lots 16 and 17, Finnegans, New Smyrna.

Ada W. Powers to Joseph M. Rogers, lots 16 and 17, block 8, East Daytona.

George G. Fleuret to Charles E. and Maude Starr, lot 5 and N. 74 ft. of lot 4 and part of lot 22, Huston's sub.

Bertha K. Smith to L. O. Upson, lots 8 and 22, block 23, resubdivision of Memento.

Wm. H. Peck to Charles W. Hanson, S. 100 ft. of N. 226 ft. of U. S. lot 2, section 16, 15, 33.

New Smyrna Bridge and Investment Company to Thomas E. Curry, lot 6 and W 17, block 4, Walker Grant.

Will G. LaFavor and Eliza May Foltz to Wesley R. Phillips and L. C. Wetherby, part of blocks 36 and 37, Hopkin's, Holly Hill.

William P. Langworthy to Silas P. Hubbell, lots 8 and 9, block 13, Daytona Beach.

Geo. H. Ludwig to Frank Bartley, lots 10 and 11, block 5, Ludwig's sub. of lot 1, block 32, Hodgeman's, Daytona.

Junius Collins to M. R. Knowlton, lot 4, block 2, East Daytona.

Geo. F. Brown to Ada D. Bush, E. 50 ft. of lots 26 and 27, M. & C., Daytona.

Edward G. Kittridge to Willard J. Babcock, lot 3, block 19, B. & S., Seabreeze.

Ida Wideman to William M. Green, lot 35, block 2, Wall's sub. in Daytona.

W. B. Day to George R. Lewis, E. 1/2 lot 28, block 3, Coleman's, Daytona.

M. R. Knowlton to John Hunt, lot 4, block 2, East Daytona.

Hannibal M. Wideman to Wm. M. Green, lot 25, block 2, Wall's sub. in Daytona.

John B. Hinsky to Ida Blanchard, lot 21, Hinsky's sub. of lots 1 and 2, block 55, M. & C. Daytona.

R. S. Sheldon to L. C. Chisholm, lot 7, block 1, Sheldon's New Smyrna.

E. T. Conrad to Sarah Thompson, N. W. 1/4 of lot 6, block 5, Greene's sub. in Daytona.

D. P. Smith to New Smyrna Land & Investment Co., 87 1/2 acres in John A. Carelo Grant and two lots in Andrews' New Smyrna.

Zuber's Orchard.

Ex-Marshall M. H. Zuber informs a representative of this paper that he is engaged planting about five acres in peaches at his farm west of the city. He says that next season he expects to go into the business more extensively.

Handsome Home Sold

A. D. Bush, of Sheldon, Ill., has purchased the handsome residential property of F. A. Palmer, on Ridgewood Avenue, near Bay Street. The home and its surroundings are among the finest in Daytona, and the purchaser has an ideal home. The consideration was \$20,000, and the enterprising real estate firm of Smith & Thomas engineered the deal. The Holmes property, which sold on Monday to J. H. Donnelly, brought \$16,000.

E. M. Stewart and his sister, Miss Eugene Stewart, of New Orleans, have returned to the city from a visit to the lower East Coast. They are delighted with Daytona, and are pleased to get back. Mr. Stewart had extensive interests in Louisiana, which he sold out before coming to Florida. He now contemplates the establishment of a sawmill in this vicinity.

COUNTY DADS HOLD MEETING.

The Management of the Daytona Bridges
Present a Petition To Raise the
Toll For Liverymen.

The Board of County Commissioners met at DeLand Monday evening and transacted a large volume of business. All members of the board were present. Road and bridge reports were submitted as follows:

Dist. No. 1—No report. Dist. No. 2—Repairs on Daytona and DeLand road. Dist. No. 3—Repairs on bridges. Dist. No. 4—Repairs on Tomoka road bridges. Dist. No. 5—General repairs.

The report of committee on Port Orange and Mt. Ararat road was received and filed and the committee discharged, and opening of said road along the following meters and bounds:—Commence on the line of the road as now laid out and run in a northwest direction to the southeast corner of the S. 1/4 of lot 7, Section 31, Tp. 15, S. R. 33 East; thence along east line of said lot to northeast corner; thence west to old Kings road, was ordered advertised for thirty days according to law.

Licenses to carry rifles and revolvers were issued to Mrs. Jessie B. Potter, J. E. Geiger and W. A. Jones.

McCoy Brothers were granted a license to operate a ferry from Daytona to Seabreeze.

The manager of the three bridges which span the Halifax at this place presented a petition asking that rates of toll for liverymen be raised. The matter was laid over until next meeting in order to give the liverymen an opportunity to present their side of the case. A petition was also received from Mr.

Gove asking why one bridge was assessed for more than the other two. The assessor stated that the Central and South Bridges were assessed for \$4,000 each. As the bridges cost from \$12,000 to \$20,000 the commissioners thought the matter did need investigating, and appointed a committee consisting of S. B. Wilson, T. L. Rodgers and F. E. Bond to look into the matter. It is probable the assessments will be raised.

Commissioners Rodgers and Bond were instructed to have the line of the Daytona-DeLand road straightened by the county surveyor, and to have mile posts placed along the line of the road.

Other business, which was of little interest to residents of this section of the county, was transacted.

Committee Meeting.

There will be a meeting of the Democratic Executive Committee of Volusia County held in the court house at DeLand, Fla., on Monday, March 12th, 1906, at 2 o'clock p. m., and it is desired that all persons who are interested in matters liable to come before the said committee will attend said meeting.

FRANK W. SAMS,
Chairman Ex. Committee.
JAMES W. PERKINS,
Secretary.

A Poem for Today

ONLY GOD IS GREAT

By Thomas Bailey Aldrich

CERTAIN pasha, dead these thousand years,
Once from his haven fled in sudden tears,
And had this sentence on the city's gate
Deeply engraved: "Only God is great."

So these four words above the city's noise
Hung like the accents of an angel's voice,

And evermore from the high barbarian
Saluted each returning caravan.

Lo! is that city's glory. Every gust
Lifts, with crisp leaves, the unknown pasha's dust.

And all is ruin—save one wrinkled gate
Whereon is written, "Only God is great."

A Poem for Today

A PETITION TO TIME

By Barry Cornwall

TOUCH us gently, Time!
Let us glide adown thy stream
Gently—as we sometimes glide
Through a quiet dream.
Humble-voyagers are we—
Husband, wife and children three.
(One is lost—an angel, fled
To the azure overland!)

Touch us gently, Time!
We're not proud nor soaring wings:
Our ambition, our content
Lies in simple things.

Humble-voyagers are we
O'er life's din, unbounded sea,
Seeking only some calm cline:
Touch us gently, gentle Time!

Accident To Auto Bus

The front springs of Peterson's bus, Tuesday afternoon, broke, causing quite a crash and scaring the passengers. The accident occurred about half a mile south of town. A messenger was sent to town, and secured another bus which transported the passengers to the city. The car is in the shop now receiving repairs.

Headline News

The help without fail, because quite picturesque in fact, testimony, and the attorney had called her down to say that had made her feel all over. "One day I found myself in fact of my own making," he said in conclusion. "Very well," she replied faintly. "You are a gentleman. How does that strike you?"—London Times.

**ACCIDENTS TO
AUTOMOBILES.**

Automobile Man Tells the Troubles of
Some of His Patrons.—Used Water
Instead of Gasoline.

A representative of The Daily News in
its hunt for happenings today accu-
sated an automobile man, and one who has
had considerable experience in the re-
pairing of machines. The gentleman,
who is always particular in re-
ferring the reporter with news, began
to enumerate a list of accidents that
have recently occurred to machines in
this vicinity. Peter Simon, while on
his way from Orlando here, had the
motor to break the connecting rod in
his Columbia car, also badly smash-
ing the engine. The machine was dam-
aged to such an extent that it will have
to be sent to the factory for repairs.

J. E. Hafferty, who was among the
first to introduce the automobile to
Daytona, is anxiously waiting for the
repair of his machine. A few days ago
the engine was struck, and the working
in the boiler burnt out.

Ed. Bond while making a trip to New
Orleans broke the crank shaft of his
machine. The accident occurred near
the Fozzard place. Word was sent to
him and J. C. Pettepher went to the
scene. The machine is now in his
shop for repairs.

An urgent call for help was received
by an automobile shop in day of two
ago. It developed that an automobile
man on one of the bridges, and the lady
owner, Mrs. Rockledge, was at a loss to
understand why the machine refused to
go. When the auto man arrived, he
found upon a brief investigation, that
water had accumulated in the gasoline
tank.

J. M. Dickerson, one of the owners of
the Steamer Cherokee, is unconvinced
by the fact that the crank shaft of
his Oldsmobile gave way.

Cake Walk and Dance

The guests of The DeLaplaid were dis-
tinctly entertained on Tuesday
evening with a cake walk given by the
owners of that hotel. There were three
couples, and a prize was awarded to the
most pretentious walker. After the cake
walk, the guests of the hotel indulged
in a dance.

aged to such an extent that it will have
to be sent to the factory for repairs.

J. F. Hathaway, who was among the
first to introduce the automobile in
Daytona, is anxiously waiting for the
repair of his machine. A few days ago
the gauge was struck, and the corking
in the boiler burnt out.

Ed. Bond while making a trip to New
Smryna broke the crank shaft of his
machine. The accident occurred near
the Fozzard place. Word was sent to
town and J. C. Pettepher went to the
rescue. The machine is now in his
shop for repairs.

An urgent call for help was received
by an automobile shop a day or two
ago. It developed that an automobile
was on one of the bridges, and the lady
owner, Mrs. Hotchkiss, was at a loss to
understand why the machine refused to
go. When the auto man arrived, he
found upon a brief investigation that
water had accumulated in the gasoline
tank.

J. M. Dickenson, one of the owners of
the Steamer Cherokee, is inconveni-
enced by the fact that the crank shaft
on his Oldsmobile gave way.

Cake Walk and Dance

The guests of The Despland were de-
lightfully entertained on Tuesday ev-
ening with a cake walk given by the
waiters of that hotel. There were three
couplets, and a prize was awarded to the
most proficient walker. After the cake-
walk, the guests of the hotel indulged
in a dance.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexoid climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving of automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia

and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect comfort as Daytona beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth sand well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the gray-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

lying between river and ocean is one-half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature

at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, snapper, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river. Fishing and fishing good. Experienced guides and dogs may be had at reasonable prices.
